Dollar Day Bargains Better Than Ever

Long Looked For Event Will Take Place on Saturday—Op-
portunity to Economize in Every Need for the Home or
for Personal Use—Every Effort to Be Made to Provide
Adequate Trolley Service—Stores Will Open at 9
O'Clock.

Everything is set for Norwich Dollar
day, which will take place this year on
Saturday, Feb. 16th, and all the mer-
chants interested, and that includes
every live merchant in the town, are
looking forward to having the best
and most satisfying Dollar day that
Norwich has ever known.

As a merchandising event, Dollar
day has been increasingly successful
in Norwich from the standpoint of
both the buyer and the merchant. The
big reason why Dollar day has been a
strong winner here is found in the
attitude of the Norwich merchants to-
wards it. They have made it a real
merchandising event, with genuine
bargains as the keynote. They have
kept in the foreground the idea that
Dollar day in Norwich should be a day
of opportunities for sound investment
on the part of their customers, and
for this reason Dollar day customers
in Norwich have come to look for real
bargains and real investment oppor-
tunities.

Dollar Day This Year on Saturday.

In past years many out of town
people who make a practice of doing
their trading here have claimed that
the Norwich merchants have not been
considerate of the interests of those
who live outside the city but who do
their trading here in holding these
trade events in midweek instead of on
Saturday. As some of them have
said: "We are busy every day doing
the week and can only find time to go
to Norwich for trading purposes on
Saturday, as that is a short work-
day." Having this complaint of the
out of town patrons in mind, the com-
mittee of merchants who had in charge
the arrangements for Norwich Dollar
day decided to hold that event on Sat-
urday this year, and thereby comply
with the wishes of those living without
the city limits who make a practice of
trading in Norwich and who advance
the claim that they are entitled to a
fair opportunity to participate in the
advantages of Norwich Dollar day.

Improved Trolley Service Expected on Dollar Day.

There is, however, a serious feature
of the Dollar day movement, one that
is being given careful consideration by
the Norwich merchants interested in
this event, and that is the limited
trolley service that is available at this
time, due to the prevailing coal short-
age. It is hoped, however, that by
Dollar day, Saturday, Feb. 16th, con-
ditions will be sufficiently improved
to permit of more extended service be-
tween Norwich and the various out-
lying districts so that the residents of
those places may have the opportu-
nity which they so earnestly desire, to
visit Norwich on Dollar day and par-
ticipate in the economic trading ad-
vantages which this occasion offers.
Robert W. Perkins, president of the
Shore Line electric road, assured those
in charge of the Dollar day movement
that, realizing the importance of the
occasion, the road will give all the
trolley service possible on Saturday,
but that the amount of service given
will of necessity be regulated by the
ability of the management to obtain
any extension of the emergency
schedule now in effect.

An Opportunity to Practice Economy.

One reason why this Dollar day will
be more important than ever before is
because it is a means of helping thou-
sands of people solve their problems of
domestic economy at a time when ad-
vancing prices for the very necessities
of life makes those problems some-
thing which has to be considered in
every household. Dollar day is recog-
nized throughout eastern Connecticut
as the most effective retail accomplish-
ment for the benefit of the consumer
that occurs during the entire year.
Existing conditions make it impera-
tive that everybody should practice
economy wherever possible. Dollar
day offers the opportunity to econo-
mize in every need for the home or
for personal use.

Norwich Stores Noted for Quality of Goods.

Norwich stores are noted far and
wide for the high quality of the goods
which stock their shelves and counters
and the variety is almost endless.
Merchandise of every description can
be had for the asking and a tour of
the local stores will reveal, on Dollar
day, bargains seldom found even in
the largest stores of the country. More-
over, Norwich merchants have ever
made it a point to stand back of their
goods. Every shopper has the satis-
faction of knowing that his purchase
is just what it is represented to be
and that the guarantee of the mer-
chant goes along with the goods.

A Variety of Items for a Dollar.

If we may judge from the character
of the goods which the merchants are
offering, Norwich Dollar day will be
an occasion of unique value-giving.
Everything which men, women, boys
and daughters and children need can
be purchased at advantageous prices.
The variety and the quality of the
articles that are being offered for a
dollar are simply astonishing in num-
ber and value. There are articles of
apparel in almost unlimited variety as
well as a hundred and one things for
the household.

Men's Needs Well Provided For.

Men will fare just as well as the
women in the articles to be purchased,
and perhaps better. Men's apparel
sporting articles, tools for work, and
many other items are on the list of
things which will be on sale on Dollar
day. It will be a revelation to a mere
man who has not kept track of the
bargains constantly on display in our
up-to-date stores to realize how broad-
ly the Norwich stores have provided
for his wants on Dollar day.

Stores Will Open at 9 o'Clock Dollar Day.

One feature of Norwich Dollar day
that should appeal to out of town
patrons is the agreement amongst the
subscribers to the Dollar day move-
ment not to open for business until
9 a. m. on that day. Heretofore, with
the stores opening at a much earlier
hour, some out of town buyers who
were unable to be on hand at the
opening hour felt that perhaps some
of the best Dollar day values had
been taken before their arrival. With
the stores opening at 9 o'clock, nearly
everybody can be in time for the
opening and thereby share in every
advantage which Norwich merchants
will offer on that day.

No Mail or Telephone Orders Re- ceived.

Another feature of Dollar day which
the public should bear in mind is the
policy which practically all the sub-
scribers to the Dollar day movement
have adopted for that day, namely,
that no mail or telephone orders will
be received for these Dollar day spe-
cial offerings. It should not be diffi-
cult for the public to understand the
reasons which make this policy neces-
sary. The Dollar day movement is
primarily to advertise the advantage
of Norwich as a trading center, and
unless the people come out and visit
the stores much of the advertising
value of the movement will be lost.
Moreover, many of the Dollar day
special offerings are limited in quan-
tity and it would be manifestly unfair
to permit patrons to order by tele-
phone some of the best values and
then have customers who, possibly at
great inconvenience, have come down-
town at the opening hour for the spe-
cial purpose of securing some of these
goods, be told that they have been all
sold.

It is expected that the public will
see the justice of the stand taken by
many of the merchants and will not
embarrass them or take up time which
is a valuable asset on a busy day such
as Dollar day will be by telephoning
orders which the merchants will be
obliged to firmly but politely decline to
accept.

Coalless, Waterless Days.

The coalless days and waterless days
are trying times for the housekeepers
who are trying to use small quantities
of both coal and water. Many pipes
are frozen, which means no water
until spring.
